
Win Your School a FREE Visit to the Star Centre!

SPACE TO INSPIRE
www.starcentre.org

Primary aged children are invited to design a vertical banner to be used by the STAR Centre. The design is to recognise Neil Armstrong's successful moon landing and the subsequent relevance of this event.

The winning design will be made into a banner and the winning school will receive a free visit to the STAR Centre*.

The winning school will have the opportunity to dress up as astronauts, explore our planetary surface, be mission controllers and experience the wonders of the universe in our Cosmodome.

The STAR Centre uses the theme of space to get people excited about science, technology, engineering and maths. We want to inspire visitors to be curious about their world and the universe and to play their part within it.

The banner template is available for download at www.starcentre.org.

**The winning school will need to provide its own transport.*
